***Special arrangement for classes held in HKSC and GoodLab due to the venues' guidelines and rules:**

If **Red Rainstorm Warning** is issued by the Hong Kong Observatory within 2 hours from the commencement of classes, **the classes held in the HKSC and GoodLab will be cancelled. A make-up class will be arranged for the affected CMT members.** This special arrangement is only applicable to classes held in the HKSC and GoodLab when Red Rainstorm Warning is issued.

Note: Classes cancelled due to bad weather or influential diseases will **not** be refunded; besides, no make-up classes will be arranged (except the special make-up classes arrangements for the CMT members whose classes in HKSC and GoodLab are cancelled due to the Red Rainstorm Warning).
